

Safety is our top priority!

At **the Stratford at Beyer Park**, The health and safety of our residents are our top priority. Learn more about the protective safety measures we've implemented in our community.

Thermal Temperature Scanner: Our community is equipped with a Goodview thermal temperature scanning kiosk that allows us to screen associates and guests for elevated temperatures.

Touchless Sanitizing Stations: Throughout our community, you'll find accessible sanitizing stations at every corner.

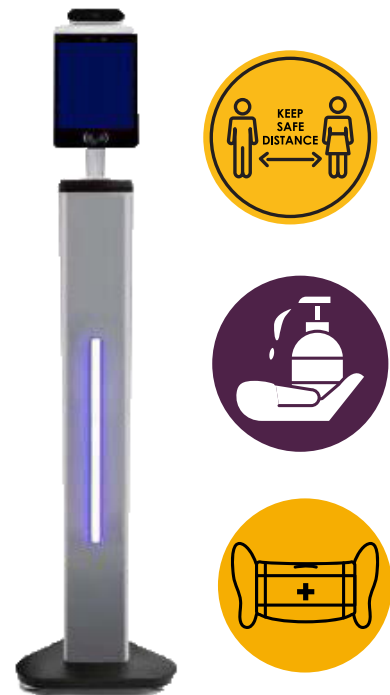

Needlepoint Bipolar Ionization: This air-purification technology protects our residents and staff by disabling a variety of viruses, including COVID-19, and eliminating airborne pathogens.
